Refrigerated incubator

Kalt D25

 **DAUERHAFT**

Refrigerated incubator

Kalt D25

The Kalt D25 refrigerated incubator offers a constant and reliable temperature with a wide control range from -15°C to 60°C and a capacity of up to 20 liters. It is designed to provide quality results with millimeter precision. This equipment is mainly used for temperature control and to provide a controlled and homogeneous environment required for cell culture or incubation of biological and non-biological samples.

Internal socket to install small equipment

Main features

Temperature accuracy

25 litres capacity

Fast heating and uniform temperature

Temperature control range

Internal power outlet

Technical specifications

Specifications	Kalt D25
Temperature Range	Ambient -15 °C to 60 °C
Temperature Accuracy	0.5 °C (at 37 °C)
Temperature Uniformity	+/- 1.5 °C (at 37 °C)
Temperature Increments	+/- 1°C
Exterior Dimension	337 x 370 x 475 mm
Capacity	25L
Weight	6,5 kg
Electrical	240V, 50-60Hz
